

Care Suites at Seasons Mango Hill

Seasons Mango Hill is fortunate to be able to offer seniors who require that additional level of support, our private residential aged care facility called Care Suites.

Our suites ensure residents can access a high level of residential aged care with our dedicated and empathetic clinical care team, including registered nurses, to provide 24/7 care when needed.

New residents to our residential Care Suites benefit from the Seasons Services Package (Additional Services) at an additional fee as a condition of entry. This is an extensive range of food, culture, lifestyle and hospitality services that is in addition to standard residential aged care services and reflects the high standards provided at our facility.
